The Potteries and South Cheshire branch of the MG Owners Club was started in March 1992 with an original membership of 3. Currently we have around 150+ members most of whom live in the Crewe and Potteries area but we also have members from Chester, Macclesfield, Market Drayton, Stafford and Congleton areas.

Membership of the club is open to any MG owner or prospective owner, irrespective of whether they are members of the national club, and the annual subscription is £10.00

Our members own a wide variety of cars ranging from a 1935 PB up to and including the RV8, MGF TF and MG3. Whilst the majority are sports cars we also have a representative selection of the MG saloons including a the ZR, ZS and ZT range and the all new MG6 & MG3

cars

A good proportion of these cars are used on a regular daily basis and the club is certainly not restricted to concours condition cars.

The Club has a busy and varied programme of events throughout the year in addition to the friendly informal meetings on the 2nd Monday and Last Thursday of the month at the Red Bull Public House in Kidsgrove, situated on the junction of the A34 and A50.

One of the main aims of the club has been to provide a friendly atmosphere for MG owners and their friends and family and not to be obsessively car orientated. This aim is reflected in the events covered during the year and the general chit – chats at the evening club nights.

Prospective members are welcome at our club nights and our policy is to let them, their friends and family join us, get to know us before any question of club subscriptions are raised. If you like us and are interested in joining our club or require any further information please contact the club secretary or a member of the Steering Group, the details are above
